

Prams, Buggies, Pushchairs and Travel Systems

Lifeline is currently unable to offer prams/buggies/pushchairs to our clients

Below are some suggestions for alternative ways you may be able to get hold of cheap prams

WEBSITES

Freecycle Edinburgh <http://groups.freecycle.org/FreecycleEdinburgh/>

Free to use: a local group where people post items they have to offer that they don't want to throw away. Instructions are on the site. You will usually have to collect items yourself.

Freegle Edinburgh <http://groups.yahoo.com/group/EdinburghFreegle/>

Alternative site to Freecycle; runs in the same way, also free to use.

Gumtree <http://www.gumtree.com/edinburgh>

A local listings site where people offer items for sale. Possible to get cheap second hand items if you're lucky and keep searching regularly.

Ebay <http://www.ebay.com/>

Online auction site where you can bid on items. Again, possible to get cheap items if you use the site regularly, but **beware**; site is UK-wide, not local, and you will need to either pick up items yourself or pay for delivery.
